The House of Delegates Passes a Bill Requiring Suitable and Safe Ones Therefor.

IS AFTER PISTOL CARRIERS

Mr. Hoge, of Lee, Offers a More Drastic Statute Against Concealed Weapons.

The session of the Senate yesterday continued but twenty minutes, and was devoid of any results of public interest or importance. The House had a longer ender and devoted an hour and a half solendar, and devoted an nour and a minoc considering the same, passing a numner of bills originating in that body.
The bill of most interest passed by the
louse was that requiring the owners or

Shortens your food - Lengthens your life

America is a nation of dyspeptics; the use of lard in cooking is the main cause. For your own protection you should divorce yourself from all food cooked with lard. Instead, use Cottolene, the purest and most palatable shortening possible to produce. Cottolene is made from refined vegetable oil and choice beef suet, is full of richness, yet free from dyspepsia. It will give you better food, and food which will agree with you. Cottolene is never sold in bulk. It comes in sealed white pals, with red label and band. In the center of the label is our trade mark—a steer's head in cotton plant wreath. Cottolene is not exposed to all the odors which surround it; lard is, because it usually comes in bulk. The quality of Cottolene is guaranteed, we stand behind it. You take no chances in its use.

Reception Instead.

The Mu Sigma Rho Literary Society of Richmond College, at its last meeting, decided to abandon the usual custom of having a public debate in February, and in its stead discussed the motion of one of its members that a reception be held in the society hall. The motion seemed to meet with the approval of all, so in the future a reception will be substituted for the public debate. Messrs. Willis, Snead and Cutchins were appointed on the programme committee, and Messrs, Pollard, Fitzgerald and Hundley were appointed to select a date and complete all incidental arrangements. The reception will be given about the second week in February. The Philologian Literary Society will give their public debate as usual in the college chapet about the middle of February.

SOUTHERN RAILWAY
WINTER TOURIST SERVICE.
Season 1904.
Europeans in the near future will be
coming to America to pass the rough
winter season instead of going to Italy
and the south of France. I mean this
literally, it will prove true. In years
past Americans went to the south of
Furone to secane the risors of our Northever, our own people, as well as the people of Europe, will be influenced by comfort and heasth in the choice of their wintering place. These they will find most real in Florida, along the Gulf Coast and in Southern California. First they can reach those points from this city, which may be called the center of the North-ern region, and from which European visitors would go more easily than they can reach the Mediterranean from Lon-don or Peris don or Paris,

don or Paris.

I am reminded of this by the announcement of the Southern Railway's Palm Limited, a magnificent and rapid train put on as a special to St. Augustine for the winter travei. There is no such train in all Europe; no such comfort and speed can be had on the trains to the Mediterranean. It is only one of three or four similar trains run by the different routes to the American Riviera. Then there is its Southwestern Limited, taking people to the Gulf Coast, New Orleans, and on to Southern California, fitted throughout with the luxuries of the best of our eastren trains. When you have reached these Southern resorts, whether on this coast or the Pacific, you find a climate incomparably more equable and healthful than that of the Mediterranean. You find cottage homes or hotels with appointments, service and food so much better than anything in any part of Europe that when only health, comfort and convenience are considered by people in selecting their wintering places, all the world will come to our Southern resorts. Americans will cease going to the Mediterranean and Egypt, except for a first trip of discovery and education.—Town Topics, New York, N. Y., January 23, 1904.

SUPT. COHN REPORTED

Was Clearing Business Streets of Snow Sunday With Men and Carts.

NECESSARY

Fuel Could Not be Delivered and Traffic Greatly Impeded, He Says.

Superintendent Henry Cohn, of the Street Cleaning Department, put in a hard day's work Sunday cleaning the most important business streets of Richmond of snow, which on Saturday greatly hindered traffic. The most interesting part of it to him was that he was reported for violating the city and State's laws, prohibiting all unnecessary work on Sunday.

1-olice Officer Matthews saw the work

rolice Officer Matthews saw the work in progress, and reported the superintendent, feeling that, it was his duty to do so. Superintendent Cohn, on the other hand, believed the work necessary that the streets might be clear, so that business could go on yesterday, and therefore did what he thought was his duty. It will now become the province of Justice Crutchfield to say which was right.

right.
Some of the Broad Street merchants are said to have told Mr. Coin that it meant \$10,000 to them to have the streets

The wood and fuel merchants were having great difficulty in filling their orders to a chilly and importuning people, and their teams were suffering greatly. The occupants of houses threw the snow from the sidewalk into the street, the street car company plows it from the middle of the street until it is banked up so high as to be next to impassable.

Mr. Cohn had his full force of 100 men and all the carts out yesterday, and did splendid work in getting the streets clear. He was several times complimented by business men who said that Richmond was getting to be a metropolitan city when its streets are so promptly opened to traffic after a heavy snow. The streets of New York are regularly cleared this way, and the snow dumped into East or North River. Mr. Cohn is putting the snow on the dumps as they are more convenient than the river.
